TOPIC INDEX

Topic	Ref ID
700 hPa height	35
additive model	90
aerosol and drought concentrations	19
agricultural crops	33
agricultural production	53
air quality	24
air temperature	13, 60
air transport	80
air-mass frequency	31
air sea interaction	54
aircraft observations	19
airflow types	32, 76
alpine	51
annual precipitation	45, 86
annual temperature	45
anomalies	88
Antarctica	4, 10, 18
Arctic	4, 30, 55, 86
Arctic climatology	18, 30
Arctic Ocean	30
area-average weighting	9
Asian monsoon	12, 69
Athens basin	24
Atlantic Dipole	20
atmospheric circulation	2, 12, 67
atmospheric general circulation model	67
atmospheric moisture budget	38
atmospheric turbidity	24
Australia	5, 15, 36, 53, 58, 91, 92
autocorrelation	70
autoregressive model	45
available water capacity	17
averages	49
Bangladesh	36, 38
Biosphere 2	12
Blue Ridge Mountains	35
boundary layer	30
Brazil	20, 67
British Isles	76, 89
Bulgaria	7
bulk aerodynamic approach	52
Canada	59
canonical correlation	62, 63, 74
Cape Town	46
carbon dioxide fluctuations	12
Catalonia (north-east Spain)	41, 70
Cedrus deodara	6
Central Europe	7
China	56, 75
chinook	59
circulation indices	31
circulation patterns classification me	23
climate	46, 83, 90
climate anomalies	13
climate change	1, 5, 26, 27, 56, 57, 87, 89
climate data	14
climate model anomaly experiments	84
climate simulation	26
climate risk	53
climate trend and fluctuation	52
climatological time series	45
clo	91
clouds	4, 10
cluster analysis	23
comfort indices	91
comparison of averages	76
Comprehensive Ocean Atmospheric Data Set	71
continental polar outbreaks	68
convective rainfall	8
correlation	13, 18, 29, 34, 37, 42, 57
Costa Rica	86
Cramer's test	78
daily rainfall	25
daily temperature range	7
data analysis	58
dendroclimatic reconstruction	6
depression tracks	76
depth-area-duration technique	39
deterministic chaos	71
dew point temperature	5
diffuse and direct radiation	82
digital terrain analysis	82
discontinuities	42
discriminant function analysis	31
dispersion measures	49
distribution tests	42
diurnal temperature range	79
diurnal variability	8
doubled CO_2	28
drought	28
dry and wet sequences	40
Durbin-Watson regression	81
East Asian Monsoon	56, 75
Eastern Mediterranean	40, 68
economic/human impacts	79
El Nino and La Nina	1, 74
El Nino-Southern Oscillation	16, 24, 57, 63, 73, 86
empirical modelling of variability	70
empirical orthogonal functions	89
energy balance	52
England	89
environmental application	31
EOF analysis	74
Eurasian snow cover	69
Europe	7, 27, 51
exponential distribution	25
extratropical cyclones	18
extreme 24-h minimum temperature analysis	41
extreme distribution models	66
extreme events	25
extreme rainfall	40, 66, 75
factor analysis	8, 34
Fast Fourier transform	46, 70
filling data	81
filters	14
flood events	38
fluctuation	7, 76
French Pyrenees	52
frequency	79
gamma distributions	25
GCM output	72
general circulation model	20, 83
generalized extreme value distribution	3
geopotential heights	34
geostatistics	11
global and difuse solar radiation	82
global model	38
global ocean	3
global soil moisture	17
global water budget	17
Great Lakes	44
Great Plains	21
Greece	24
greenhouse effect	33
Greenland	4
gridded data	21
Gulf Stream	76
Heat Index	91
histogram	3
homogeneity	42
horizon effects	82
Hulme winter index	11
hydrological cycle	69
ice-atmospheric interactions	18
India	39, 54
Indian monsoon	37, 62, 66, 92
Indian Ocean sea-surface temperature	69
Indian rainfall	63
Indian seas	54
inflows	51
interannual climatic fluctuations	29
interannual temperatures	46
interannual variability	12, 33, 73, 88
interdecadal variations	32
interpolation	72
inversion layer	30
isohyet pattern	11
Israel	68
Jenkinson formulation	41
Kriging with external drift	11
Labrador Sea	57
lag cross-correlation	86
Lake Tekapo, New Zealand	51
lake-effects	44
Levant	68
linear movements	3
linear regression	29
long-range forecast	74

Topic	Ref ID
longterm climate	77
lower troposphere	88
lunar-solar cycle	13, 14, 15
Madrid	81
maize harvest	85
maritime and continental clouds	19
maximum and minimum temperature	7, 77, 79
maximum entropy spectrum analysis	13
Mediterranean	40, 68
melt pond depth	55
melt-pond albedo	55
meridional index	40
Mexico	16
Mexican monsoon	16
microphysical parametrization	19
mid-summer droughts	28
model validation	26
moisture availability	27
monsoon	73
monsoon rainfall variability	36
monthly rainfall	50
moon	43
Mount Pinatubo	61
mountain climatology	35
multifractals	71
multiple regression model	90
